

# PLASTIC FREE HAWAII

## Reusable Cup Program for Events

Kōkua Hawai'i Foundation's Plastic Free Hawai'i program seeks to minimize single-use plastics on our islands by educating and empowering schools, businesses, and community members across Hawai'i.

Catch the #PlasticFreeWave and help reduce single-use beverage cups at your event or function by offering Plastic Free Hawai'i reusable cups to attendees. These Plastic Free Hawai'i branded reusable cups come in two sizes, 12oz and 22oz, and feature art by local artist Heather Brown. The reusable cups are made from BPA-free high quality reusable plastic, are dishwasher safe, and can be reused more than 100 times without fading or cracking.

### How It Works:

- Serve beverages in reusable cups at your event so that guests can refill their cup over and over to reduce the need for single-use cups.
- Determine how many cups you need and which implementation option you want for your event. Then coordinate delivery or pickup cups prior to your event with KHF.
- Earn additional revenue for your event or organization! Offer the cups for sale at the suggested retail price of \$3. Pay \$2 for any cups sold, and your organization makes \$1!

### Implementation & Payment Options:

Cups are \$2 wholesale price with a suggested retail price of \$3.

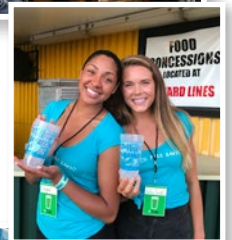

1. **Direct Sales** – Buy them outright with a net 30 payment term.
2. **Consignment** – Order and pay us for them after the cups are sold at your event.
3. **Borrow & Return** – Borrow cups, wash used cups according to KHF's sanitation guidelines, and return all clean cups to KHF.

We will work with you to create the best plan for your event! Event greening consultation and signage is also available!

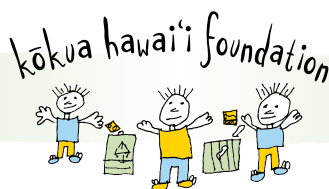

**Hosting an event for over 500 people?** Consider offering our Plastic Free Hawai'i Water Refill Stations at your event to eliminate the need for single-use plastic water bottles!

More Plastic Free Hawai'i merchandise, including reusable straws, utensils, bottles and stainless steel cups, are available for sale. See the *PFH Retail Sales Offerings* sheet for details.
